About City Directory Circulation

THE true value of advertising circulation is *circulation consulted.*

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305 =
1,067,500

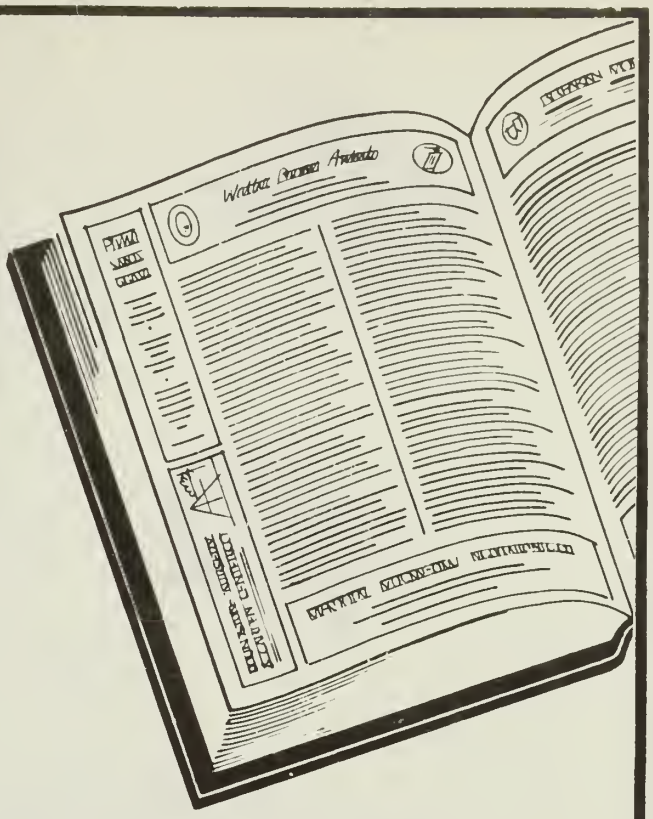
Circulation Consulted

WHO USES IT ?



The lawyer and his secretary,
The druggist and his customer,
The banker and his depositor,
The real estate man and his prospect,
The auto dealer and his salesmen,
The newcomer and his family,
The purchasing agent and his assistant,
The credit manager and his skip tracer,
The dispatcher and his driver,
The ad manager and his gal Friday,
The librarian and his public,
The retailer and his clerk,
The doctor and his nurse,
The police chief and his patrolmen,
The prospective bride and her groom,
The gas station operator and his motorist,
The clergyman and his flock,
The loan manager and his borrower,
The detective and his leg men,

The *Motor Hotel* has the BIGGEST BEDBUGS in Town!

When a young advertising salesman suggested to a small town hotel proprietor he begin a schedule of Display Ads aimed at Local Patrons, he agreed that the suggestion had merit. He felt however that he could not afford large enough Ads and stated "Nobody Reads Small Ads."

The Adman disagreed and was so sure of his service that he offered to run a series of one inch Ads free of charge providing that he could write the copy. The innkeeper thought this request was reasonable and responded with an "O.K., but what are you going to say in my Ads?"

"Nine Words," said the salesman. "It will read: The Motor Hotel Has The Biggest Bedbugs In Town."

The hotelman shouted, "You'll drive me out of business!"

"But Sir!" said the salesman, "You said no one ever reads small ads."

* * *

People do read small ads. Many a large business started with small ads, and only because the Small Ads produced results were they able to become Big Advertisers. Don't put off telling people about your Products and Services just because you can't compete Size-Wise with large businesses. Discuss it with our representative. He'll have some good ideas for you.

Act now! Arrange for your Ad to appear in our next edition.

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right odd" after street description indicates odd numbers on right side of street.

The symbol * following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

S Res Denotes Summer Residence

Zip Codes are included in the description of each street and changes in Zip Codes for streets with more than one code are indicated at the address where the change occurs.
